

ULTRAAUTOSONIC are Manufacturers, Suppliers, and Exporters of Ultrasonic PP Box Handgun. We designed the ultrasonic welding machine for PP Box in different sectors like the Automotive sector, Coroplast Corrugated Box, Corrugated Box, Food & Beverages Container, Industrial Storage Container, Pharmaceutical Storage Sector, etc

An ultrasonic PP box welding handgun likely refers to a packaging solution made from polypropylene (PP) material that incorporates corrugated layers. PP (polypropylene) is a thermoplastic polymer, and using ultrasonic welding for PP corrugated boxes can provide efficient and precise bonding. These machines are commonly used in different industries for joining corrugated plastic sheets or boxes. They work by applying ultrasonic vibrations to the materials, causing them to melt and fuse

SPECIFICATION

Frequency (Khz)	20 kHz
Power (Watt)	1500
Horn	Design as per the customized application
Actual Weight	Approx. 18 kg.
Actual Size (L X W X H)	Approx. (483 x 458 x 238) mm
Packaging Type and Size	Corrugated Box and Approx. Size (581 x 556 x 336) mm

Operational Requirement

Input Power Supply	AC 230V 50/60Hz, 16Amp
CVT / Stabilizers	If the voltage is unstable then use CVT / Stabilizer to avoid damage

FEATURES

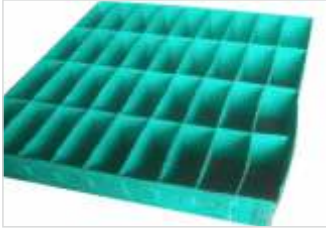

1. Variable Welding Modes
2. Design for Operator Comfort
3. High Productivity and Efficiency
4. Portable
5. Auto-tuned, Time mode, and Power mode
6. Wide Range of Tip

ADVANTAGES

- ⊙ Create a comparable and strong bond on polypropylene boxes
- ⊙ Reduces the amount of time needed for assembly
- ⊙ Decrease training time and boost output
- ⊙ Cost Effective
- ⊙ Lightweight to carry

APPLICATION

- ◆ Automotive Sector PP Box
- ◆ Coroplast Corrugated Box
- ◆ Corrugated Box
- ◆ Food & Beverages Container
- ◆ Industrial Storage Container
- ◆ Pharmaceutical Storage
- ◆ Retail Packaging
