

ULTRASONIC MULTIFUNCTIONAL CAKE CUTTING MACHINE

Specially For Bakery Industry

The Multifunctional Ultrasonic Cake Cutting Machine is a high-precision food cutting solution designed for clean, smooth, and efficient cutting of cakes, pastries, brownies, cheesecakes, and other soft bakery products. Using advanced ultrasonic technology, it ensures crumb-free cutting with minimal product wastage. The machine supports multiple cutting shapes and sizes, making it ideal for bakeries, confectionery units, and automated food production lines. Designed for versatility, the machine can produce multiple cutting patterns and portion sizes, including square, rectangular, triangular, and parallelogram shapes.

SPECIFICATION

Operating Temperature During Cutting	5°C to 10°C
Cutting Shape	Squares, Rectangles, Parallelogram, Triangle
Cutting Tray Size	Tray 600 mm x 600 mm x 60 mm
Capacity	High cutting efficiency and fastest with 2 knife
Frequency	20 kHz
Watts	2 KW (Each Cutter)
Voltage	AC 230 V, 50/60 Hz, 16 Amp
Cutting Length	610 mm
Ultrasonic Knife	305 mm x 2 pieces
Cutter Material	Titanium (Food Grade)
Cutting Height	Up to 70 mm
Power Consumption	5 KW
Cutter Type	Standard

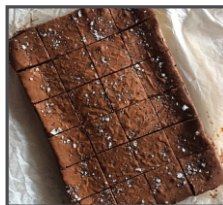

Cutting Shape & Tray Size

Cutting Base Plate	600 mm X 600 mm
Cutting Shape 1	Square
Cutting Shape 2	Rectangle
Cutting Shape 3	Parallelogram
Cutting Shape 4	Triangle
Touch Panel & Controller	7" HMI & Touch Screen Display
High/low Voltage Protection	Available
Safety Operation	Light Curtain

FEATURES

1. Equipped with Advanced Sensor Technology
2. Flexible Cutting Options
3. Multiple Shape Cutting Capability
4. Custom Cutting for Every Shape
5. Maintains Texture & Moisture
6. High-Speed & Automation Ready
